Subject: Alton Coal Mine/ Coal Hollow Project

Hello,

I am writing in response to project C/025/0005 This would be a terrible mistake to allow this project to proceed in this area.

In this pristine area between two national parks and all the natural beauty and our large amount of tourist travel, to add so many coal trucks to the highway would not only add to the congestion on highway 89 but destroy our roads!

You can't be serious about letting this proceed and ruin our tourist business and it is not going to add anymore jobs to the towns around the mine except for the few in Alton.

To have over a hundred trucks going to and from Alton and Cedar City everyday on these highways is a terrible thought!

Please do not let this happen!

Thank You,

Mr. Jerry Biggar
Hatch, Utah
